ICR PIETER FEITH TODAY WELCOMED THE FINAL ROUND OF MAYORAL CONTEST IN THE NEW MUNICIPALITY OF PRATEŠ/ PARTESH.

Pieter Feith said:

“I congratulate the Government for its commitment to decentralization, those who are running for office, and most of all the citizens for taking their future in their own hands and turning out to vote. I am confident that this will open a new chapter for the citizens of Parteš/Partesh who from now on will have more access to decision making on issues that affect their daily lives.

“This is another important step in implementing the commitments in Kosovo’s Constitution and the Comprehensive Status Proposal to build a future of Kosovo as a free and democratic country that will be a homeland to all of its citizens regardless of ethnicity. I look forward to Parteš/Partesh municipality’s establishment, and to continued progress over the coming months with decentralization throughout Kosovo’s territory.”
